after bending themselves to diligent studies through the long, dreary months of winter and the pleasant time of spring, should likewise be indulged in the recreations incidental to the summer vacation. The male students who can afford the tuxury are off to skim the take, scale the mountain or loiter in elegant case near some of the popular watering piaces. Let, then, the giris in their sphere be allowed to follow in a maidenly way their own diversions and amusements during

the sunny months of ardent summer, Perhaps one of the most interesting of our pubhe school receptions that we have had this season took place yesterday in the hall of the Normal College, Lexington avenue and Sixty-ninth street. It was that of the reception of the female departments of the Grammar Schools of the Nineteenth ward, an interesting ceremony, in which no less than 1,500 girls, some of them building into

womanhood, participated.

Long before the hour appointed for the commencement of the exercises the entire hall, wings and galleries were compactly filled by the young pupils and their friends. The gathering, which composed andience and actors, showed a large predominance of youthird girlish faces, with a fringe, here and there, of grown and aged spectators, mostly ladies, in the background. It was a heaithy representation of social worth and edu-cated intellect. Natty hats and jaunty bonnets were perched upon pretty neads among the spectators, while the scholars presented a sea of beautiful childish features, and a pleasing array of bittle forms, decked in summer's fleecy drapery of blue and white. Pretty tans undulated before flushed, anxious little people's peering, bright eyes, and occasionally a gossamer handkerchief waved a sign of recognition to some parent or riend in the crowd. The exercises were gone through in a very cred-

The exercises were gone through in a very creditable manner indeed by the girls, collectively and individually. There was not a failure among them. It would be invidious to praise any particular scholar where all acquitted themselves with so much credit, and it is no more than just to say that the youthful students our very meekly the meed of appianse which greeted their efforts to excel. In recitations the calidren showed a strong appreciation of the carefully studed elocution, which they delivered with that inimitable grace peculiar to girlhood. The unfamiliarity to old-machined auditors of most of the pieces recited was quite remarkable, but, all things considered, was, perhaps, upon the whole, acceptable. The order in which the exercises took place will be following:—

After the honors had been conferred upon the blushing young graduates Mr. Moulton addressed the classes. This gentleman was followed by the Nev. Mr. Schroff, or Bombay, India. The reverend speaker appears to be a pure-blooded Hindoo, and, as a representative of his nation, the very apposite remarks which he made were received with great attention and warmly applauded. He said that although but three weeks in this country its greatness has very much impressed him, and no reacht but it is desirated to be still the desirated to the desirated to the desirated to the desirated to the desirated great attention and warminy applaumed. He said that although but three weeks in this country its greatness has very much impressed him, and no doubt but it is destined to be still greater in the future. One hundred years have not passed since it separated the bonds which bound it to the mother country, and the progress which the United States have made in that comparatively short historic period is astonishing, whether cooked upon from secial, moral or intellectual points of view. This grand march of progress is attributable mainly to see reason, namely, the universal spread of education all over the land, among high and low, made and remale. Female signation is of the very greatest consequence. Napoleon once said that the way to make a centry happy and prosperous is a consequence to the control of the co

Scarcely of lesser importance than the College Commencements that have just passed are the annual receptions of the female department of the different ward schools throughout the city. These annual exhibitions of female progress in learning are looked forward to with anxiety and hope on the part of the mothers, fathers and friends of the young lady students, as well as the interested youthful scholars themselves. The boys have had their term of study, and now enjoy a period of relaxation; and it is but fair that the girls, after bending themselves to diligent studies through the long, dreary months of winter and COMMENCEMENT IN THE YORKVILLE

Meetings of Republicans Last Evening

in Different Parts of the City. The First Assembly District Republican Association met last evening at No. 152 Franklin street, at eight o'clock. Mr. Charles A. Stetson, Jr., was in the chair. The cause of the meeting was a resolu-tion transmitted to the association from the republican General Committee organizing district ssociations in the new uptown districts, compris-

The resolution was unanimously adopted.

The Third Assembly District Republican Associaion met last evening at the Fourteenth Ward Hotel, Thomas F. Geary, President of the association, in the chair. The same resolution, before mentioned, had reached the association from the

tion, in the chair. The same resolution, before mentioned, had reached the association from the General Committee, organizing associations in the uprown newly annexed districts. The resolution was adopted.

The Eleventh Assembly District Republican Association met at Windolph Hall, No. 316 Eighth avenue, Mr. Frederick E. Farmer in the chair. The object of the meeting was in view of the approaching campaign to revise the roil of the membership of the association. A committee was appointed to report on the matter at a future meeting, as the necessity of the tining appears to have become evident. Without mitther transaction of business the meeting then adjourned.

A special meeting of the Sixteenth Assembly District Republican Association was held list evening at eight o'clock, W. H. Anthon occupying the chair. The object was the revision of the constitution and the consideration of the adoption of several proposed amendments to the constitution of the association. These amendments were merely of interest to the club itself, and were discussed at some length.

The Twenty-first Assembly District Republican Association was held at Lincoin hall, Third avenue and lifth street. The meeting was for the purpose of considering a report of a sub-committee. The resolution concerning the organization of the Twenty-third and Twenty-lourth Assembly District associations was passed upon, and the meeting adjourned after discussing some matters concerning the coming campaign in November next.

The Liberal Republicans.

A meeting of the liberal republicans was held in one of the pariors at the St. Denis Hotel yesterday alternoon. The meeting, which lasted several hours, was not open to the press. The following hours, was not open to the press. The following gentlemen were present:—John Cochrane, New York, Chairman; Hon, L. S. Bundy, Otsego; James Gibson, Washington; Gibert C. Dean, Richmond; Thomas C. Stewart, New York; Benjamin A. Wilus, New York, Archibaid N. Bilss, Kings; C. W. Goddard, Kings; Benjamin F. Maniere, New York; J. C. Collins, Lewis; John Cashaw, Kings; Clark Bell, New York, Airer a long discussion the Chairman was authorized to issue a call for a convention of the liberal republicans at Albany on the 9th of September, at twelve M. The call will be issued in a day or two.

Row at a Political Meeting.

A number of German democratic politicians met Twelfth street, to organize a party on the old and true democratic principles, D. A. V. Hofer in the chair. Those present were mostly old officeholders under the Tweed regime, who were either holders under the Tweed régime, who were either expelled from other political organizations or not considered the proper material for the new organizations which have among the Germans been started within two years. After some preliminary remarks from the Chair, explaining the call, a motion was made to appoint a committee of five to draw up a platform. Pending the motion Mr. C. Isar and Mr. J. A. Spaithot, both in a very lively mood, entered, and immediately called the Chair and others present liars, political rogues and similar names. A Mr. Henry Herz thereupon struck Mr. Spaithof with a cane on the head, whereon a general fight ensued, in which all of the dozen politicians present took a hand. Messis, Isar and Spaithof were expedited to the sidewalk, whereon the meeting, which was a fizzle, adjourned.

#### THE HEAT OF YESTERDAY.

Compared with its predecessor yesterday was not a very hot day, and happily there were not so many sunstrokes. The heat was flerce enough to produce sunstroke, but the warning of the press and printed lists of victims yesterday morning had the effect of making those who had to go abroad very circumspect. Umbrellas were in demand: the baths, public and private, were was completely deserted, and the west side uncomfortably crowded. Boys with bits of green
and yellow paper howled, "Don't get sunstruck
now, when five cents 'ill save you." Inquiry
developed the fact that some enterprising individual has turned a late scientific discovery
to pecuniary advantage. A professor in
one of the Eastern universities has
promulgated the theory that it is the
chemical and not the caloric ray that produces
sunstroke. The old fashion of wearing a green leaf
in the hat is not talismanic as many suppose, but
truly scientific. Green averts the heat ray and
yellow the latal chemical ray. These little boys
were selfting both colors; so that now for five cents
we can be secured against sunstroke. was completely deserted, and the west side un-

Three cases of sunstroke were reported by the police yesterday, to wit:—
Gotleib Eisesner, of No. d21 East Eleventh street. was overcome while at work in a coal yard in Thirteenth street, near avenue D.

Michael O'Rellly, of 73 Graham street, was found at the Jersey City ferry and taken to the Park Hospital.

James Kelly, while working at the Cornell Iron Foundry, was overcome and brought to Bellevue

Foundry, was overcome and brought to believe Hospital.

Patrick Lynch, aged thirty-five, of East Thirty-fourth street, was overcome by the heat yesterday at Fulton and West streets. He was taken to Park Hospital.
